Software Developer

BTM layout, Bangalore

## SUMMARY

I am a BCA graduate and a highly motivated Full Stack Developer fresher with hands-on training in Java, Spring Boot, MySQL, HTML, and CSS. Proficient in building backend systems and creating responsive, user-friendly interfaces. Eager to apply my skills in real-world projects and contribute effectively as a team member. Passionate about continuous learning and growth in the software development field.

## EDUCATION

**Bachelor of Computer Application**  
JSS College for women, Mysore University  
2020 – 2023

## SKILLS

- Proficient in Java, HTML, CSS, and JavaScript
- Hands-on experience using **Spring Boot** for backend development and REST APIs
- Strong knowledge of MySQL for database design, queries, and integration
- Familiar with **GitHub** for version control and collaborative coding
- Basic knowledge of Microsoft Word, Excel, and PowerPoint for documentation and presentations
- Able to work independently as well as collaboratively in team environments
- Quick learner with a passion for new technologies.

## CERTIFICATIONS

**Java Full Stack Development**  
KodNest Institute - Bengaluru  
Sep 2023 - April 2024

## PROJECTS

### TUNEHUB APPLICATION

- Developed using **SpringBoot framework** for efficient backend management. Seamlessly
- integrates with the **database** for efficient song storage and retrieval. Offers intuitive song
- management features, including playlist creation and song addition. User-friendly
- interface ensures smooth navigation and enjoyable music exploration.
- Designed a simple and clean interface for both admin and users, with login/signup and role-based access for better control and security.
- Supports audio file upload and playback functionality for a smooth music streaming experience.

### A Personal Diary Web Application

- Crafted a multi-page diary web application using HTML, CSS, and JavaScript.
- Designed for capturing daily thoughts and emotions, each page features a unique aesthetic layout inspired by the memory it represents.
- The interface integrates mood-based visuals, background music, and quotes to enrich storytelling. Fully responsive and user-friendly,
- the project emphasizes emotional expression through clean UI and personalized design.
